Victor Chandler (**VC**) offers online football betting

Market odds or market prices is the number that will be multiplied by your stake in case you place a winning bet.

A **handicap bet** is a kind of bet where the weaker team is given an advantage in terms of goals so as to level the playing ground. Likewise, the stronger team is given a goal disadvantage.

Asian handicap betting is a form of betting on football in which teams are handicapped according to their form so that a stronger team must win by more goals for a bet on them to win.

The **over 2.5 goals** market means that you are betting that the total number of goals scored during the match plus stoppage time will be over 2.5. You will win only if there are three or more goals during the game.

The **under 2.5 goals** is a popular football bet that literally means you are betting on there being less than 2.5 goals in a football match. That means you'd win this under 2.5 goals bet if the match you'd bet on produced no goals, one goal, or two goals.

Maximum bet amounts are the largest stakes that a punter can bet on any given market. Maximum payout amounts are the max amount a punter can win from any one bet. Bookmakers use maximum bet & payout amounts as a form of insurance against making large losses.
